- Hydraulic swimming platform that offers easy access to the sea

“The week was a gift of the Greek Gods, we had one of the best weeks of our life. There are no words to thank the kindness and attention of the amazing crew, including the delicious meals.”

THE YACHT

If chic minimalism is your idea of heaven, the pristine Feligo V will fit the bill as the perfect stylish haven to retreat to.

Built in 2008 by Cantieri di Pisa, this sleek 34 metre craft has been interior designed by Francesco Paszkowski to suit the most exacting and discerning of clients who seek to be surrounded by modern functional beauty.

White modular sofa seating dominates the salon while the two double, two twin and one convertible cabins – the last of which can be used as an office or adapted as a further double – are the epitome of pared-back elegance.

Boasting a modern kitchen which wouldn't look out of place in a loft style apartment, Feligo enjoys a cruising speed of 20 knots and clients can rest assured that they have everything they need to enjoy the most sybaritic of escapes.
