the catamaran

One of the newest luxury power catamarans launched by Sunreef Yachts, the 80ft Otoctone 80 was delivered in January 2020. Setting sail between Italy and Spain during the summer season, she offers a dream escape for those looking to explore Sicily, the Amalfi Coast, the French Riviera, the Balearic Islands and beyond, cruising at a maximum speed of 15 knots.

An all-star crew of three are aboard to cater to a maximum of eight guests in four modern double cabins, while her sleek and stylish interior is fashioned with grey undertones for a calming, relaxed vibe. Adrenaline junkies won't be disappointed either – in her toy box, Otoctone 80 houses everything from a Williams Sportjet 520, jet ski, SeaBob and jetboard, as well as paddleboards and a wakeboard for those looking to get out on the water.
