- Engines** MAN 450Hp diesel Generator  
– Kohler 40kw x 2
- Naval Architect** Tripp Design Naval Architecture
- Exterior Designer** Tripp Design
- Interior Designer** Nauta Design

**the yacht**

The most anticipated rebuild of recent years, G2 is a multi-award-winning yacht. Originally built by Vitters as Cinderella IV, the yacht was relaunched as G2 after an all-encompassing rebuild by Pendennis in summer 2018. A pedigree collaboration, she features structural restyling by the original naval architect Tripp Design and modernised interiors designed by Milan-based studio Nauta Design.

The rebuild saw the removal of the exterior aft classic cuddy cabin, a feature catering to more intemperate climates, creating a large open social space ideal for outdoor living. G2's pilothouse appears to float on the deck and provides dramatic sightlines along the length of the yacht. The result is a beautiful contemporary yacht with a silhouette that is instantly recognisable, original and timeless.

**special features**

- Winner of 2019 World Superyacht Award
- Ideal for both quiet cruising and fast sailing
- Large open social space ideal for outdoor living
- Recently rewired with all new lighting and entertainment systems
- Captain Jason Geale has won many national sailing titles • Flexible cabin layout
- Calming and minimalist design
- Lifting keel giving access to shallow waters

**CAPTAIN JASON GEALE**

Captain Jason Geale came to G2 with 14 years' experience in the yachting industry. Highly qualified and hardworking, he creates an enjoyable experience for all guests while maintaining a safe environment. A passionate sailor since the age of 12, Jason has gained national titles and competed at the highest international level in the laser class.

He has cruised extensively on superyachts in the Mediterranean, Caribbean, Pacific and Asia, his passion being for anything nautical as well as cycling, snowboarding and trekking.

**the experience**

G2 offers unforgettable and unique sailing experiences combined with stunning design inside and out, encapsulating the best of a light, simple, clean and balanced design. The new interiors by Nauta Design encourage open plan living by opening up the main salon with various spaces for different social uses, and she's been completely rewired with new lighting and entertainment systems.

Her interior style enhances the yacht's modern minimalist design, with natural woods, a relaxing geometry and a calming ambiance that blend seamlessly with the exterior profile.

She's an extremely airy yacht with natural light throughout thanks to a new reinforced glass skylight over the main deckhouse, enlarged hull windows and oversized portholes.

A more spacious feel has been created in the owner's cabin through the repositioning of a bulkhead further aft, making it the perfect place to relax after a day in the sun.

G2's new optimised deck layout, with its spacious centre cockpit and fully reconfigured arrangement of the helm and aft deck, enables a connection between guests and crew while the yacht is underway. On deck, architectural biminis that can be set up and taken down quickly provide shade both at anchor and under sail.

**the cuisine**

After a day of spectacular sailing on board G2, guests can relax on deck or in the deckhouse and enjoy delicious cuisine prepared by the on board chef and served in style by the yacht's crew.

Ideal for guests following healthy diets or specialised food plans, including vegan, macrobiotic, gluten-free and dairy-free, the chef can prepare delicious meals to suit any taste and is proficient in cuisines from around the world including Thai and Japanese, Italian and Greek.

G2 can also be stocked with guests' favourite champagnes, wines and other drinks to ensure they have whatever they need during their voyage. Taking pride in producing the best possible dishes, using the freshest and organic ingredients, the chef is keen to support local farmers and businesses whenever possible.

If guests are celebrating a special birthday or anniversary during their time on board G2, arrangements can be made for a special dinner or lunch to commemorate the occasion, with table arrangements and decks decorated with flowers and other unique surprises.

The captain and crew invite you to join them for your next charter experience and discover the good life on board G2.
